SYNOPSIS:

Equity, the body of law developed in the English Court of Chancery, has a long and distinguished history. In the twenty-first century it continues to be an important regulator of both commercial and personal dealings, as well as informing statutory regulation. Although much equitable doctrine is settled, there remain some intractable problems that bedevil lawyers across jurisdictions. The authors address specific doctrinal questions as well as the 'meta' issues of organisation and methodology, and their findings will be of value to academics and practitioners alike.
The decision of the House of Lords in Twinsectra v Yardley (2002) has refocused attention on the Quistclose trust (Barclays Bank v Quistclose Ltd [1970] AC 567). Although accepted by insolvency lawyers as a convenient tool for corporate rescue, the precise basis of the trust has always been in doubt. The purpose of these essays is to explore the supposed foundations of the trust and subject them to a searching analysis. In particular, attention will focus on Lord Millett's controversial analysis in Twinsectra of the way the trust works and his assertion that it is consistent with traditional principles of trust law.

SYNOPSIS:

Restitution: A new perspective provides a detailed critique of current and widely accepted theories seeking to unify the law of restitution on the basis of a principle of unjust enrichment. Commencing with a brief history of restitution, the book proceeds to illustrate the diverse legal problems addressed by the law of restitution. The legal doctrines now collected under this heading are demonstrated to have fulfilled a gap-filling role in our law, much like the diverse doctrines of equity have done. The book questions the underlying basis for unjust enrichment theories and demonstrates their inadequacy as descriptions and explanations of restitution.

SYNOPSIS:

Alastair Hudson's Equity and Trusts is an ideal textbook for undergraduate courses on the law of trusts and equitable remedies. It provides a clear, current and comprehensive account of the subject through which the author's enthusiasm and expertise shine through, helping to bring to life an area of the law which students often find difficult. The eighth edition of Equity and Trusts will be edited and updated to include discussion of the key developments in the subject since publication of the seventh edition in 2012, including the latest case law and potential for regulation relating to cohabitation and shared ownership as well as cases arising in the light of the enforcement of the Charities Act 2006.
The common law offence "contempt of court" is the legal mechanism dating back to the early 1100's by which the judiciary ensures its independence, effectiveness and dignity. It is the means by which the court avoids interference with the administration of justice thereby ensuring that the accused has a fair trial. It is the means by which the court punishes scandalous acts. With the rising of the new constitutional era by which all laws, be they common or statutory, are to conform to the deemed contemporary values of a new democratic society, the offence of contempt has to be in conformity with the values of the Namibian Constitution. One of these values is the fundamental right to freedom of speech and expression bestowed upon the media.
